

UNIVERSITY of the
WESTERN CAPE

A collage of five hexagonal images showing various university scenes: a flagpole with the South African flag, a clock tower, a classical building with columns, a modern building entrance, and a garden area.

Managing Overtime in Higher Education Institutions

Balancing Operational Efficiency, Staff
Wellbeing & Compliance

Facilitators: Dr Queen Ambe (UWC) & Peet du Plessis
RAEI Workshop 2025 – Strand, Western Cape

SETTING THE CONTEXT

WHY OVERTIME IS A CRITICAL TOPIC IN HIGHER EDUCATION

Overtime affects

- ☐ staff morale,
- ☐ institutional costs,
- ☐ compliance,
- ☐ and well-being.

In HEIs, cyclical demands like

- ☐ Registration
- ☐ Exams,
- ☐ Graduations, or audits
- ☐ drive spikes in workload.

How many hours of overtime per month do you consider sustainable?

IDENTIFY KEY PRINCIPLES AND COMMON PITFALLS IN OVERTIME MANAGEMENT

Compliance: BCEA limits to 10 hours per week and requires written consent.

Equity: How are overtime opportunities distributed?

Cost: Are we tracking or simply paying reactively?

Productivity: Chronic overtime often signals poor workload planning.

Which challenge causes the most tension in your institution?

THE CORE DILEMMA

Scenario 1:

- Payroll and HR staff work late for SARS deadline – Finance refuses to pay.

Scenario 2:

- Cleaners/security personnel required to work overtime during registration without approval.

Where is the line between operational duty and compensated overtime?

Who authorises and who monitors?

① The Slido app must be installed on every computer you're presenting from

slido

BEST PRACTICE RECOMMENDATIONS

Three white circles with blue outlines are arranged vertically on the left side of the slide. They are connected by thin blue lines that extend slightly beyond the top and bottom circles.

A. Compliance: Written consent, weekly limit, rest intervals.

B. Cost Control: Budget caps and monthly reconciliations.

C. Wellbeing: Time-off in lieu, rest-day scheduling.

Which control would have the biggest impact?

THE TECHNOLOGY LEVER

A diagram consisting of three white circles arranged vertically, connected by thin blue lines. The top circle is connected to the middle one, and the middle one is connected to the bottom one. The top circle also has a line extending from its top-left, and the bottom circle has a line extending from its bottom-left.

Integrated overtime modules in Payroll systems.

Automatic time-off conversion.

Analytics to identify departments with recurring spikes.

ETHICAL DIMENSIONS

Overtime should not substitute fair pay.

Dependency culture creates inequity and fatigue.

Gender equity: who can work overtime vs. who bears family load?

Align overtime management with transformation and wellness policies.

MODEL FRAMEWORK FOR HEIS

Area	Key Action	Outcome
Policy	Define approval thresholds	Predictability
Process	Automate workflow	Transparency
People	Train supervisors	Accountability
Performance	Track hours vs. productivity	Efficiency
Partnerships	HR–Finance–Line collaboration	Governance alignment
